## New Collection 2021

We present you the Ofitres contemporary furniture collection. A collection that has been carefully designed, piece by piece, with enormous attention to detail.

We aim to build furniture that awakens our senses, harmonizes spaces and lasts over time.

Three collections: Hat, with poufs offering endless possibilities; Tono, with a fine and unique structure that's key in a storage system, benches and desks; and finally, the Downtown table collection.

All the furniture in this catalog is designed to fit out from workspaces to select homes. We have been exploring shapes, textures and colors for months, in collaboration with the great La Mamba team, to achieve this innovative and stylish collection. We hope you like the new Ofitres DNA.

# HAT

*Poufs | Designed by La Mamba*

The Hat poufs collection helps you optimize open spaces, creating comfortable and versatile environments. Hat is a collection created for collaboration and social gatherings. Designed with smooth lines and attention to detail, it brings warmth to the environment, offering accessible comfort for changing needs.

# TONO

*Benches | Designed by La Mamba*

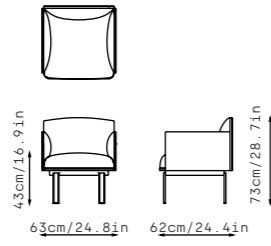

The new Tono bench system offers a modular collection of seats made up of 2 and 3-seat modules. Different arms, seats and tables will provide thousands of combinations. A program designed both for open spaces, meant to create large compositions, and for small spaces, aimed at laying out delicate resting places.

# TONO

Desk | *Designed by La Mamba*

The Tono desk collection offers a product intended for offices and consulting rooms, and also for a dedicated workspace at home. Its design, featuring distinctive joining details and oval legs, provides a light and resistant desk.

# DOWNTOWN

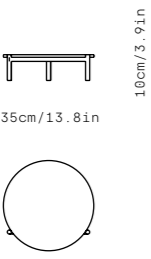

*Side tables | Designed by La Mamba*

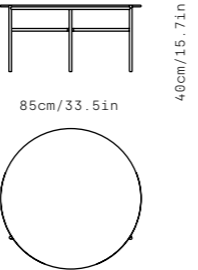

The Downtown table collection is the result of combining soft lines and basic shapes. An essential design full of details that define this collection of coffee and side tables.
